

LEVAN

Welcome to the party.

In honour of our favourite, late disco DJ, Larry Levan, we've put together a few wines & drinks in this book that will hopefully take you somewhere near to seventh heaven and back again. Or at least mountain high or river deep. The list features a range of wines which have been made with care and love. The majority are low intervention, organic, biodynamic winemakers who care as much about environment as they do with what's in the glass, realising that both are intrinsic to each other. Enjoy!

Jura & friends

Jura. No, not that lovely island off the coast of Scotland known for whisky. The Jura we're talking about is found in Eastern France, in the shadow of the Alps and a neighbourly distance from its famous cousin, Burgundy. Nicholas, Matt and Mark have a profound love for the Jura, with its unique grape varieties – Savagnin, trousseau and poulsard – and legendary cult wine makers such as Pierre Overnoy and Jean-Francois Ganevat. We love it so much, that we've dedicated a couple of pages to the region and with simple descriptions that will hopefully encourage you guys to explore this fascinating winemaking area. Please do ask the team for recommendation.
