LEVAN

Welcome to the party.

In honour of our favourite, late disco DJ, Larry Levan, we've put together a few wines & drinks in this book that will hopefully take you somewhere near to seventh heaven and back again. Or at least mountain high or river deep. The list features a range of wines which have been made with care and love. The majority are low intervention, organic, biodynamic winemakers who care as much about environment as they do with what's in the glass, realising that each are intrinsic to the other. Enjoy!

White wine of the Jura

Jura. No, not that lovely island off the coast of Scotland known for whisky. The Jura we're talking about is found in Eastern France, in the shadow of the Alps and a neighbourly distance from its famous cousin Burgundy. With its unique grape varieties Savagnin, Trousseau and Poulsard (aka Ploussard), as well as its fine examples of Pinot Noir and Chardonnay, and its legendary winemakers and practices, the Jura is a particularly fascinating (and delicious) region.

Jura whites come in two styles - *ouillé* or 'topped up', and *sous voile*, meaning oxiditatively aged under a 'veil' of yeast.

Red wine of the Jura

The Jura's red wines are made from indigenous varieties Poulsard (aka Ploussard) and Trousseau, as well as the more famous Pinot Noir, and the occasional cameo appearance of a few others. These varieties coupled with the Jura's *terroir* and climate tends to yield delicate, perfumed and bright wines coupled with an earthiness and rusticity that is so compelling. Of course there are exceptions, Trousseau in particular also lending itself to full-bodied, structured and age-worthy wines.

Red//	Bottle		Bottle

Cult winemakers of the Jura

"Psst... you got any Overnoy?" Some Jura *vignerons* make wines so consistently great, but in such small quantities, that they have achieved legendary cult status. Their names are whispered across bars and in cellars, with barely contained hope and optimism that there might be a bottle or two stashed away, if one asks very nicely. We have been lucky enough to score tiny allocations of wines from some of these legends to share with you (But no, we do not have any Overnoy...yet).
